Experience the INKPACT™ Evolution

5300 Series Inkjet and Impact Banking Transaction Printers with INKPACT™ Technology

Smart Design

The 5300 Series printers with versatile INKPACT™ Technology are designed with today's need for speed, versatility, compatibility and reliability in mind. Ideal for any printing application that requires customer receipts or printing on an inserted form, these printers are a cost effective solution to any banking application need.

Receipt / Validation 53X1 Model

Solid Reliability

The design is the result of years of research and experience building state of the art printers for the banking, retail and POS industries.

Packed with Features

- Standard full width independent form validation of up to 14 printed lines.
- LED's indicate modes of operation, paper present, ink conditions and printer status.
- USB 2.0 and RS232 serial interfaces standard on every printer.
- One-button setup configuration for a simple, trouble free installation.
- Semi-automatic self-loading feed mechanism simplifies paper loading and minimizes user intervention.
- Snap-in ink jet cartridges ensure fast trouble-free replenishment.
- Bi- Directional optional automatic form alignment feature.
- Microsoft certified driver

Validation Only 53X4 Model

RS232 & USB Interface's Standard

Small Footprint

Compact with dimensions kept to a minimum, Pertech's 5300 Series' functional design is highlighted with stylish, ergonomic features for the user's convenience.

Low Total Cost of Ownership

Pertech's 5300 series' total cost of ownership is the lowest of any transaction printer available on the market today. Low TCO combined with the 5300's extensive list of features delivers a cost effective teller transaction solution that is the top of its class.

Low Noise

Acoustically designed isolated print mechanism and platen solution for silent operation.

High Speed

Bidirectional logic seeking print engine provides full width printing at a speed of 5 lines per second.
